I LIKE XM BECAUSE IT GIVES UP TODATE WEATHER AND TRAFFIC INFO IN MAJOR AREAS . I DRIVE A TRACTOR TRAILER ALL OVER THIS COUNTRY AND UNTIL XM RADIO I NEVER HAD ADVANCE WARNING OF SERIOUS CONDITIONS WHICH WOULD BE IN MY ROUTE OF TRAVEL TIL NOW . REGULAR BROADCAST SYSTEMS R FINE IF YOU ARE IN ONE AREA BUT IF YOUR DOING 500/600 MILES OF DRIVING A DAY YOU CANNOT I REPEAT (CANNOT) MAINTIAN A RADIO SIGNAL FROM LOCAL BROADCAST STATION . ALSO HOURS GO BY WHILE DRIVING 5/600 MILES A DAY XM HAS AUDIO BOOK , MUSIC AND INFORMATIONAL CHANNELS WHICH NOT ONLY PASSES TIME BUT HELPS KEEP YOU ALERT WHILE IN FULL CONTROL (HANDS ON STEERING WHEEL) FOR HOURS ON END . WHILE ON THE ROAD I CAN ALSO HERE WHATS GOING ON BACK IN MY HOME AREA IN CASE OF BAD WEATHER / ATTACKS AND SO FORTH . I BELIEVE IT WOULD BE IN THE BEST FOR MANY OF TRAVELERS TO LET XM RADIO DO THE FINE JOB THEY HAVE BEEN DOING
